Portfolio: sarfaraz27.vercel.app

8+ years of product management in travel tech and fintech: B2B API distribution, pricing and rules engines, and payments. Scaled a B2B API distribution platform from USD 10K to USD 100M in annual revenue. Now builds AI products hands-on, from problem framing to prototype to evals.

AI PRODUCTS BUILT INDEPENDENTLY · live demos and case studies at sarfaraz27.vercel.app

- **Worth It** – English and Arabic electronics shopping guide that recommends the best fit, a cheaper option and the trade-off.
- **Flights Waypoint** – Enter two airports and see every nonstop and connecting airline route on an animated globe.
- **Cite** – Answers built only from your sources, with a verbatim quote behind every claim.
- **Signal** – Turns raw customer feedback into themes, sentiment and a prioritised action list.
- **Geospatial Plant Monitor** – Map-based triage that tells field teams which plots and fields to visit first.
- **Halcyon Tasking Planner** – Predicts satellite passes and schedules customer requests with downlinks that meet each deadline.
- **Tone Coach** – Reads the emotion in a customer message, then rewrites the reply so it lands well.

EXPERIENCE

Product Manager · Rahal (SuperQi fintech ecosystem) · Dubai

Mar 2026 – present

- Own the consumer flights and hotels product end to end (search, pricing display, payment and post-booking servicing) inside a fintech super-app.
- Defined the payments strategy for a largely cash-based market, prioritising wallet and cash-collection rails, with eligibility, settlement and reconciliation rules agreed with fintech and finance.
- Built the business case for a B2B portal for offline travel agents, with credit limits, markup bands and commission structures.
- Run booking and funnel analytics in SQL and Excel; findings set quarterly roadmap and commercial priorities.

Product Manager, API Distribution, B2B & Payments · Almosafer / Seera Group · Dubai

2018 – 2026

- Scaled the B2B API distribution platform from **USD 10K to USD 100M in annual revenue**, exposing in-house hotel inventory to partners worldwide, and owned the rate, availability and margin logic behind every price returned.
- Cut API response time from ~4s to under 1s, lifting **look-to-book conversion 50%** and routed search volume 3x; reduced infrastructure cost per search 33%.
- Designed the commercial rules layer (contract rates, partner-tier markups, promotional eligibility, currency) that resolves competing inputs into one auditable price.
- Integrated 10+ partners (TGX, Juniper, bedbanks, major OTAs) and GDS/NDC sources (Amadeus, Sabre, Travelport) into one internal schema.
- Launched instalments/BNPL on Almosafer and Tajawal (**USD 5M+ sales**) and built the DMC platform with SAP integration (**USD 10M+ sales**).
- Shipped Qitaf and AI Fursan loyalty integrations, and ran A/B and multivariate tests on pricing and checkout that cut payment drop-off.

Product Manager · Nistapp · Hyderabad

2015 – 2017

- Owned merchant and consumer Android and web apps for an SME loyalty platform, from wireframe to production; grew active usage 4x after launch.
- Defined loyalty and campaign logic (earn rates, redemption thresholds, eligibility) and lifted delivery throughput ~35% with structured agile practice.

Co-founder & Product Head · Insane Labs · Chennai

2013 – 2015

- Took an AR and embedded-systems startup from concept to paying clients in India and Singapore, growing from one product to three at 20% a year.
- Won the Microsoft PitchIt! challenge and qualified for the Regional Microsoft BizSpark Challenge.

EDUCATION

MBA (Blended), IIM Ahmedabad · 2025–27

Two-year executive programme for working professionals, taken alongside full-time work.

Master's in International Business, Hult · Boston / Dubai, 2012 · Best Research Award

B.E. Electronics & Instrumentation, Anna University · 2011 · First Class

CERTIFICATION

Senior Product Manager Certification · Product School, USA · 2023

SKILLS

Product: pricing and rules engines, payments and settlement, B2B APIs, A/B and multivariate testing

AI: LLM product design, prompt design and evals, RAG, prototyping

Data and tools: SQL, Excel, Tableau, PostHog, Metabase, Kibana, Jira, Confluence, Salesforce, SAP

Travel tech: Amadeus, Sabre, Travelport, GDS/NDC

LANGUAGES

English, Hindi (native) · Urdu (proficient) · Arabic, Tamil (basic)
